INTRODUCTION

In this module, you will learn that:

Arts of the Renaissance Period covers artworks produced during the 14th, 15th and 16th centuries in Europe. The word "renaissance" comes from the word, "*renaitre*", which means, "rebirth." It pertains to arts, particularly in Italy, such as sculptures, paintings, music, architecture, and literature. The most common subject of this period is human philosophy. Famous artists of this era were Michelangelo, Leonardo Da Vinci, Raphael and Donatello.

The arts of the Baroque Period are more elaborate and full of emotion. They developed in Europe around the 1600's. This type of art form was highly encouraged by the Catholic Church to propagate its dogma. Artists who were popular during this era were Caravaggio, Rubens, Velasquez, Rembrandt, and Bernini.

PRE-ASSESSMENT 1:

1. Divide your class into groups. Each group will be given a set of pictures of different art.
2. Identify the common characteristics of the pictures.
3. On the board or on a classroom wall, put the pictures with similar characteristics together.
4. Describe the similar characteristics.
5. Each group will have to answer the following questions:
 - What are the subjects of the art?
 - What are the materials used in the art?
 - What could be the reason why the artist made such an art?
6. Record all the answers on a sheet of paper to be submitted to the teacher.
